## PROFILE

## EXPERIENCE

### INNOVATIONM, MOBILE AND WEB TECHNOLOGIES (SEPT - 2018 - JAN 2021)

- Extensively worked autonomously and automated UI's
- Automated APIS using pytest and request module from python, which in turn contributed to the team by saving significant testing efforts, time by reducing the regression testing for each repetitive testing.

#### Clients worked For:

- OneAssist Consumer Solutions Pvt Ltd. (January 2019-April 2020)
- EZmall(May 2020 - Jan 2021)

### FULLTHROTTLE LABS (FEB 2021 -PRESENT)

Single-Handedly took projects from start to finish with little or no supervision. Delivered tested and optimized the projects and took continuous feedback and improved apps.

#### Projects built with Flutter :

- Serenity App. A clubhouse-like App. Built the backend system Implemented the features like Login, Logout, Used firestore, Real-Time Db and Cloud Functions. A Design Intensive app with Web RTC implemented Using Agora for Live Audio Broadcasting as same as Clubhouse. I was the single developer involved in development of All the features.
- Pyjama HR. An Upcoming ATS systems App build with Flutter and Dart with a team of 2. We Completed the Feature-rich app within a month with almost no bugs.
- Alpha: A Social Betting App Built with the firebase backend system, Had complex features like payment integration using Stripe and a really complex and beautiful UI design which was built pixel perfect and was loved by the entire organization.I was the single developer involved in development of All the features.
